

I am writing to object to Sinclair Broadcasting's decision to air an anti-Kerry documentary days before the election across all their stations.

Sinclair is privileged to use our airwaves, and should be required to do so fairly and in the public interest.

Sinclair's actions as a large company demonstrate why media ownership rules should better protect local ownership, and why not weaken them. They show why the FCC needs to be more rigorous and vigilant in its license renewal process.

Thank you.
